

Fun Spas

For **Fitness**
Relaxation
and **Fun**

Treat yourself to a better way of living.
You deserve it!

**The ultimate relaxation experience.
Embrace a brand new, healthier lifestyle.**

In today's busy world, the constant pressures of work and life often leave us mentally and physically drained. Finding moments to relax can prove to be challenging.

If you're looking for a better quality of life, there's a convenient solution - a luxurious spa in your own home. It lets you enjoy a soothing soak and massage, helping you achieve a perfect balance of body and mind. Take time to savour the leisurely moments and appreciate the beauty and joy of life. Treat yourself to a professional-grade hydro massage spa and create your own wellness retreat.

Fun and relaxation
for the whole family

Ingenious
design for
maximum
comfort

Graceful lines

Our design draws inspiration from graceful lines, offering a holistic and soothing massage therapy from your neck to your feet.

Safe and comfortable spa experience

Soft, non-slip, chemical and ozone resistant steps provide a luxury and safe entry and exit from your spa.

Pristine white & elegant grey

Subtle shell and cabinet colours compliment the clean, modern lines and premium design of the spa.

Creating the perfect massage

Point map massage jet layout

Fun Spas combine precision massage and a scientific seating layout to offer the proven benefits of hydrotherapy and the stimulation provided by hydrotherapy massage - using targeted water jets to loosen muscles, stimulate blood flow and create a total body feeling of wellness.

Unleash surging force

Elevate your hydrotherapy experience with our cutting-edge high-power massage pumps. Delivering a powerful yet soothing hydrotherapy experience via an array of adjustable stainless steel jets.

Diverse jet combination

Different jet configurations on each seat provide a varied and targeted massage for different muscles groups.

Full body massage recliner

Experience the relaxation of your entire body all at once - from your neck to your toes.

Accu-pressure back massage

A number of accu-pressure jets are used in one seat to precisely target pressure points in the back and lower neck.

Foot massage therapy

With more nerves and muscles in your feet than anywhere else there's no doubt why everyone loves our foot massage jets.

Customise Your Own Massage Experience

1. Precision-crafted stainless steel hydrotherapy jets.
2. Each jet can be easily replaced and are interchangeable (of the same size).
3. Adjust each jet individually for a great targeted massage.

2 Inch Jet Internal-Directional

3 Inch Jet Single-Spin/Twin-Spin

4 Inch Jet Single-Spin/Twin-Spin

5 Inch Jet Single-Spin/Twin-Spin

More room more comfort

Traditional hot tubs often have wasted space around the edges, limiting your ability to truly stretch out and unwind. At Fun Spas, we believe in the power of **"More Room, More Comfort"**, meaning that you won't be cramped or confined.

Stretch your legs, find your perfect seating position. Our carefully engineered design provides a roomy interior that allows you to fully enjoy your hydrotherapy sessions. While our spas may have a small floorspace, the interior space is remarkably spacious, thanks to our unique maximisation of space.

Invigorating Hydrotherapy Jets

Each Hydrotherapy jet is positioned perfectly to loosen the tightest knots in your neck and shoulders, lower back, legs, and feet.

Ergonomic seating

With 3 decades of experience, our spas are designed to ensure even the longest soak is a comfortable one. The design maximises the space within the spa to ensure that everyone has plenty of room to truly enjoy their experience.

Unleash your best swimming performance

Fun Spas revolutionary patented 3 inch turbo swim jets provide a powerful yet smooth flow, for an unparalleled swimming experience.

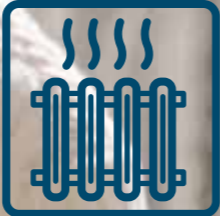

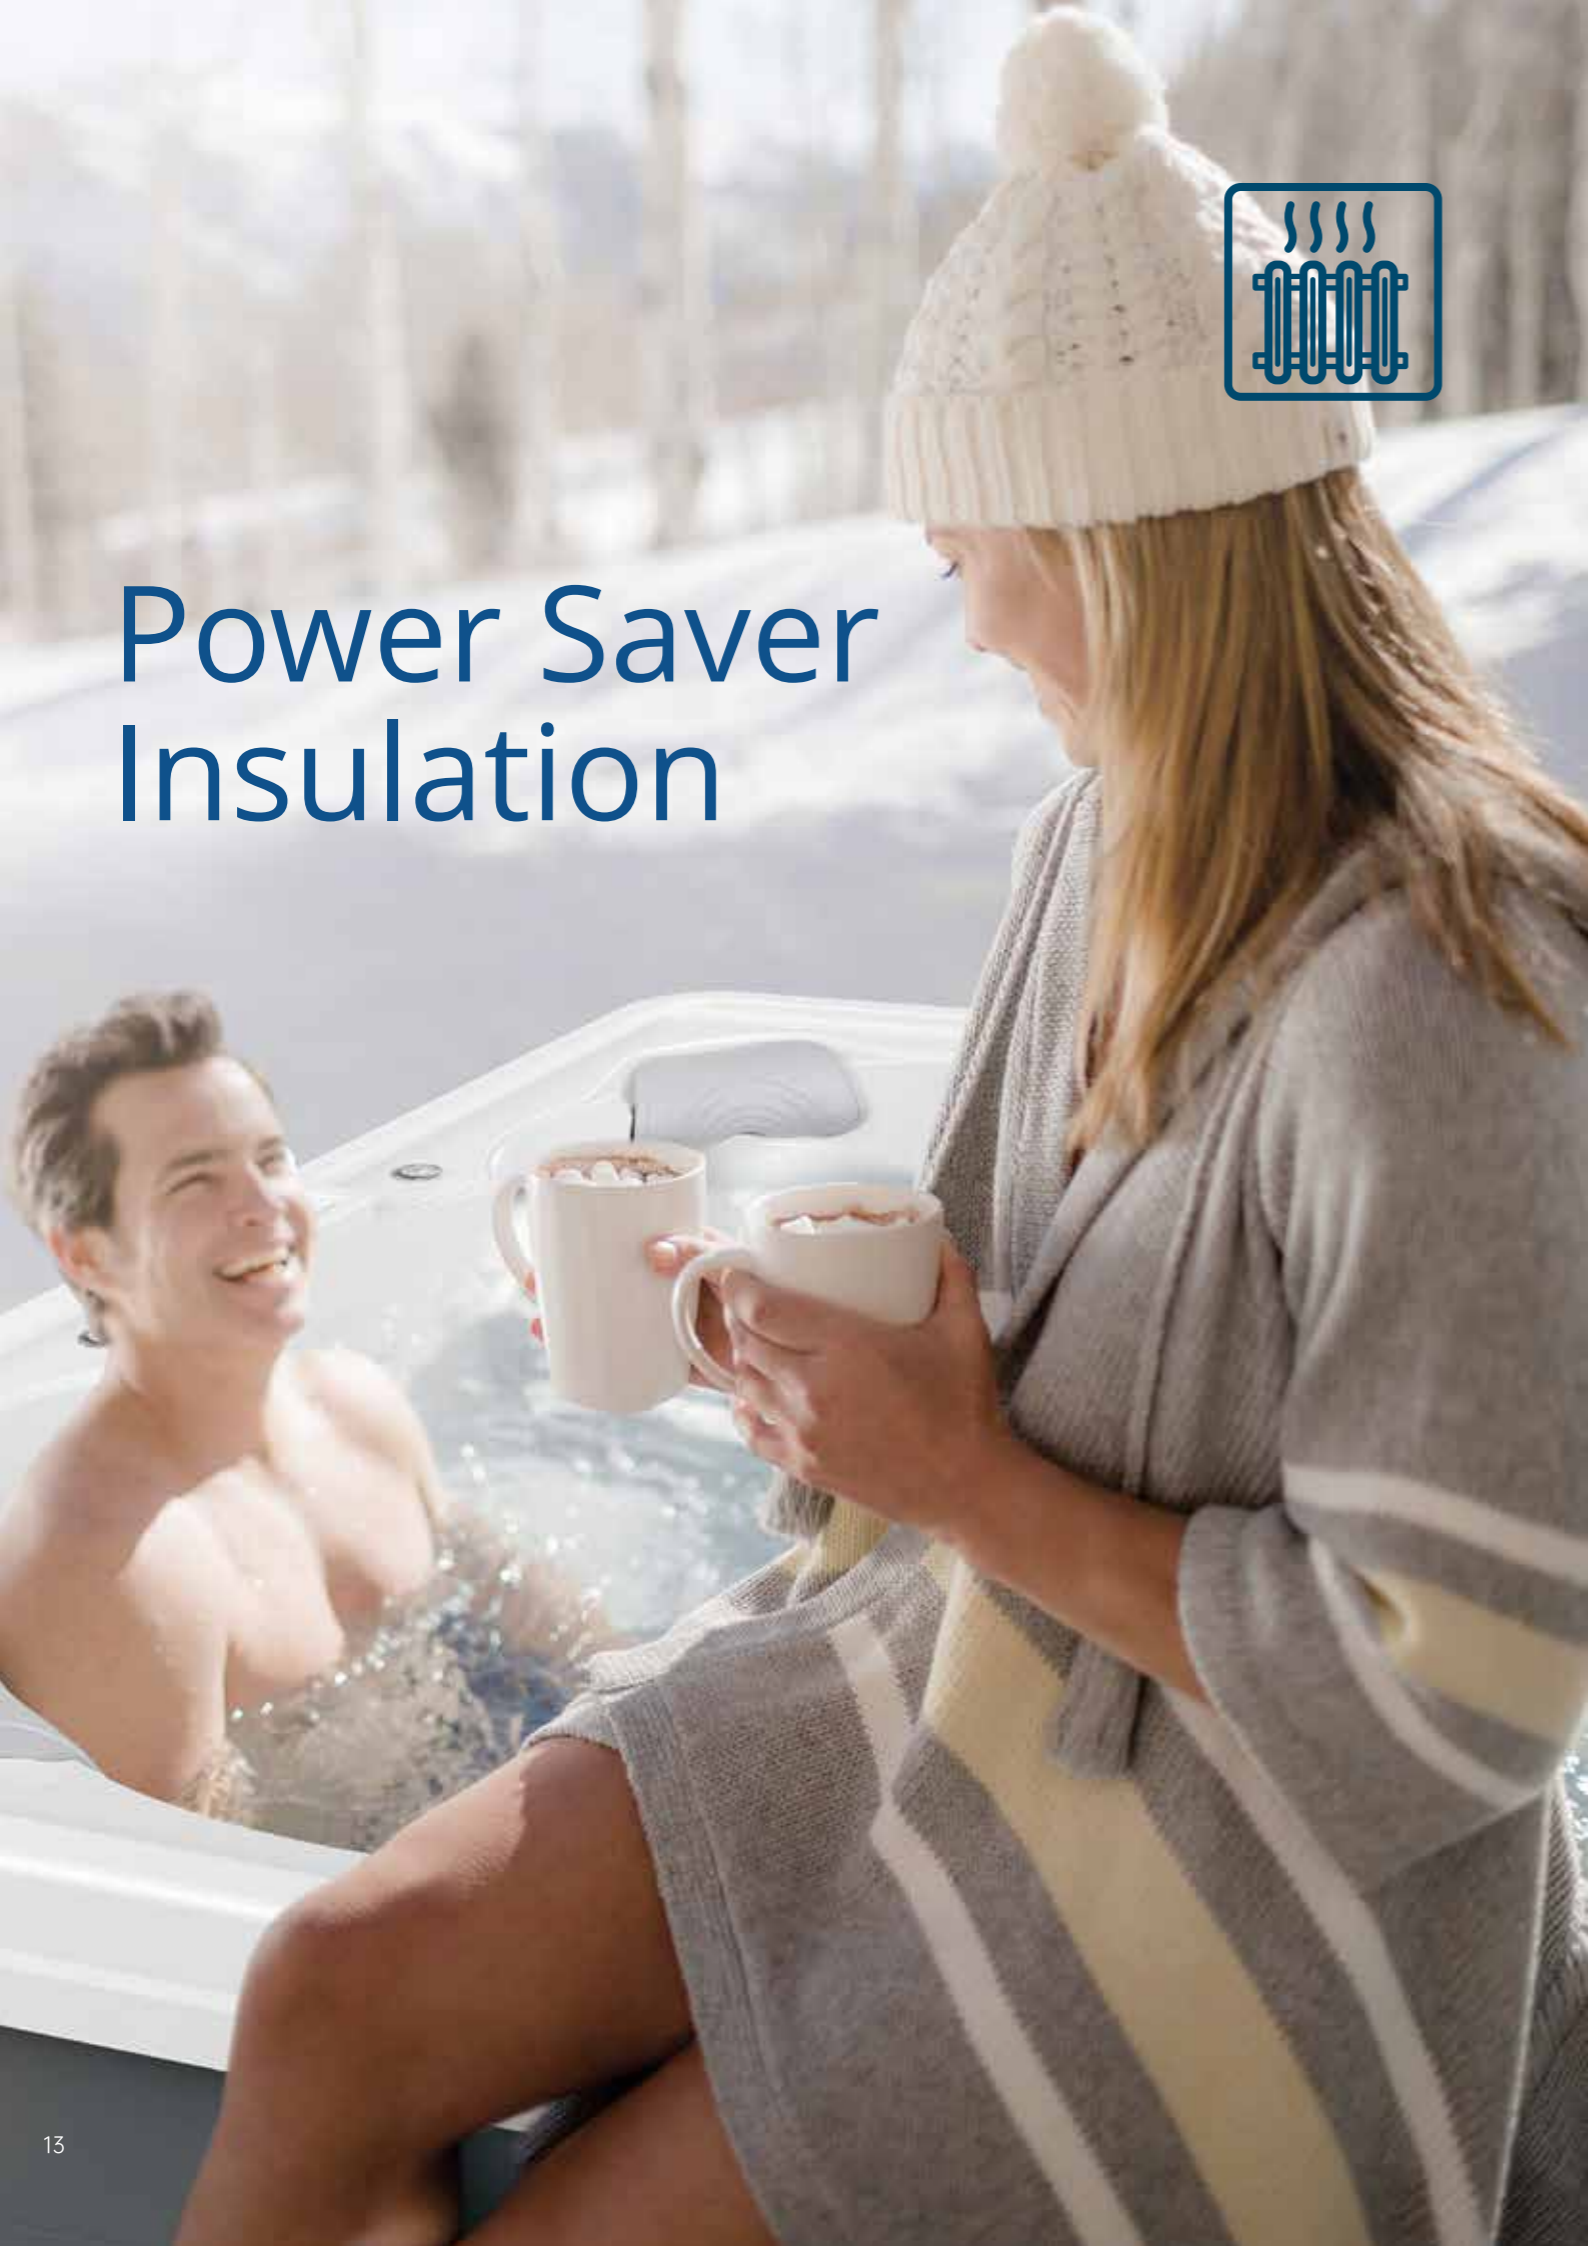

Correct jet positioning is crucial, low or wide jets just waste water flow. Our swim jets target the shoulders and chest to create maximum balance.

Patented 3-inch power flow swim jets

Indulge in a truly professional quality swimming experience with the very best swim jets on the market.

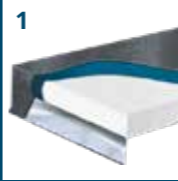

- Revolutionary honeycomb design, which is different to every other direct injection jet on the market. This allows a more uniform flow pattern without any vortex turbulence.
- Power flow swim jets for targeted resistance powered by high flow pumps, allowing maximum smooth water flow.
- Correct jet positioning is crucial. Our swim jets target the shoulders and chest for maximum resistance.

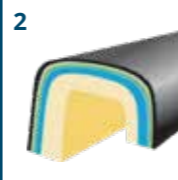

Power Saver Insulation

6-Stage Skirt Lock Insulation System

- 

1 High density foam cover
High-quality hot tub cover with high density core foam and aluminium reinforced centre supports. Premium vinyl cover which is durable and easy clean, supplied with 4 safety locking straps and easy lifting handles.
- 

2 Edge foaming
This new system of edge foaming insulation is sprayed to the upper lip inside of the spa helping to make a draft free heat tight system.
- 

3 PVC Woodgrain Side Skirt Panels
Side skirts are constructed from hard-wearing, weatherproof PVC and finished in a stylish grey woodgrain finish. This not only gives a stylish look, but is stronger and more energy efficient.
- 

4 Insulation foam
High-performance insulation foam with aluminum foil prevents heat loss and actively reflects it into the spa cabinet and water.
- 

5 Solid ABS plastic base
A solid plastic base creates not only a strong support system but also helps with heat loss and keeps rodents and pests at bay.
- 

6 Base Insulation
Triple layer insulation is a more effective way to protect against heat loss made up of 2 aluminium layers and 1 foam.

Enjoy unrivalled water purity

Our efficient antibacterial filtration system provides crystal clear, food-grade water.

Food-grade water quality

Enjoy food-grade water quality with NSF food-grade hoses, ensuring that the water meets drinking standards and protects you and your family from harmful chemicals.

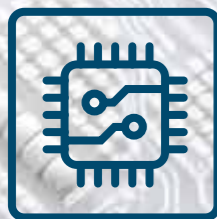

High efficiency filtration

Highly efficient blue filters quickly remove debris from your spa, ensuring a safe and clean experience is always ready for you.

Virus and bacteria elimination

Ozone venturi allows O₃ to fully integrate with the water so that every drop of water is sanitised.

Easy control at your fingertips

With 18 years of experience, the SPATECH control system offers a new world of possibilities for spa users.

The state of the art hot tub pack features integrated WiFi connectivity, meaning easy and convenient control of your spa, whether you're at home or away.

- High class 2-year warranty
- Power saving monitoring
- Engineer friendly
- WiFi controller

Customisable maintenance reminders can be set to remind you to perform tasks such as filter cleaning and water changes when needed

Thanks to its simple and efficient configuration, the LCD Display keypad is intuitive, user friendly, and easy for anyone to use

Integrated WiFi gives you full control of your spa via a convenient smartphone app, whether you're at home or away

Ambience at the touch of a button

3 Distinct LED lighting areas

For an unparalleled relaxation experience.

Waterlevel lights

Large underwater LED

Backlit controls

Lighting to match your mood

Waterlevel lights | Large LED

LED water level lights complimented by a large underwater LED enhance the visual ambience of your experience. Offering a range of customisable colour options, including color-changing modes for dynamic effects, the lights contribute to a mesmerising, relaxing hot tub experience.

Back-lit controls

Our lighting effects aren't just limited to the water. Backlit diverter controls and air valves add a distinct touch of elegance and make adjusting settings at night a pleasure. These controls are colour-linked to the underwater lighting, creating a uniform ambience.

Discover the healing power and benefits of Hydrotherapy

Stress Relief

Soaking in a spa helps relax muscles, reduce tension, and alleviate stress. The warm water and massaging jets can calm both the body and mind.

Muscle Relaxation

The combination of heat, buoyancy, and hydrotherapy jets can help soothe sore muscles, ease muscle tension, and improve flexibility.

Improved Sleep

Using a spa before bedtime can promote better sleep by helping the body relax and inducing a deeper, more restful sleep cycle.

Stimulated Healing

The combination of heat and hydrotherapy can accelerate healing processes by improving circulation and reducing inflammation.

Lower Blood Pressure

Regular use of a spa may help lower blood pressure levels, especially when combined with relaxation techniques.

Better Circulation

The heat from a spa dilates blood vessels, leading to improved circulation, which can benefit heart health and overall cardiovascular function.

Pain Relief

Spa hydrotherapy can aid in reducing chronic pain conditions such as arthritis, fibromyalgia, and muscle soreness by increasing blood flow and releasing endorphins, the body's natural painkillers.

Weight Management

While not a direct weight loss tool, using a spa can complement weight management efforts by aiding in relaxation, potentially reducing stress-related eating, and promoting better sleep.

Why Fun Spas?

Fun Spas is a global brand with over 3 decades of experience. Our products are enjoyed across Europe, Australia and North America, and trusted by thousands of customers globally.

What sets Fun Spas apart?

Fun Spas stands head and shoulders above the competition due to its relentless pursuit of perfection and unwavering focus on premium quality and exceptional after-sales service. When you use a Fun Spas product, you'll realise why it's in a class by itself.

Exceptional after sales service

We offer robust logistics, storage, and transportation services in Australia, UK, France, Netherlands, Austria, and more. Our dedicated team is committed to providing ongoing support and guidance, ensuring your satisfaction and peace of mind well beyond your purchase.

Manufactured excellence

Produced by Crystal Island, Fun Spas along with other major world renowned spa brands originate from their state of the art 150,000m² facility. This facility delivers up to 300,000 spas and swim spas annually to approximately 46 countries. As the largest spa production facility globally, coupled with Fun Spas local support network, it ensures the purchase of the best possible product.
